BLUEGENIX

ADVANCED SOLUTIONS

FOR

AQUACULTURE FARMING

Science-driven aqua-care solutions for **healthier shrimp, Fish ponds** and **better farm performance.**

PRODUCT CATALOGUE

ABOUT BLUEGENIX

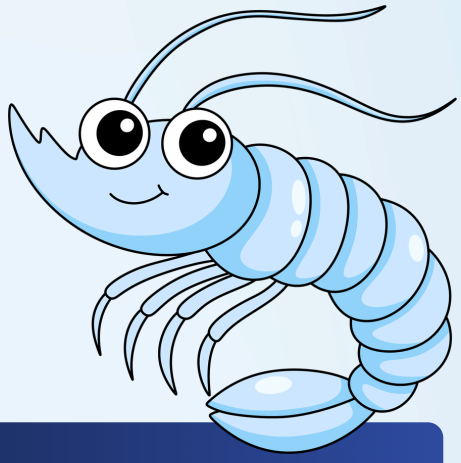

Bluegenix Aqua Care Solutions is a specialized shrimp-care company focused on solutions for the evolving challenges of modern shrimp farming.

AQUACULTURE FOCUSED
Solutions built exclusively for shrimp and fish farming

SCIENCE DRIVEN
Formulations backed by research and innovation

COMPLETE PORTFOLIO
Covering shrimp and fish health, nutrition, minerals and pond management

FARMER FOCUSED
Practical solutions for better farm outcomes

OUR MISSION

To deliver advanced, reliable and effective aqua-care solutions that support healthier shrimp, balanced ponds and better performance for farmers.

OUR PRODUCT PORTFOLIO

Complete solutions for every need in shrimp farming

SHRIMP HEALTH & GUT MANAGEMENT

- EnriX
- Gut X-treme
- VibBlocX
- Gutfort-X
- Ascovex-C
- NutriPept-X
- Hydro softX

GROWTH & MINERAL NUTRITION

- GrowX-BG
- Aqua MineX
- ShellCap
- FlowMineX
- LivoriseX

POND & WATER MANAGEMENT

- GeomaX
- PondX Pro
- Blue Oxy
- OdoMax
- Sanitrix-A
- Gemomax Pro Granules

CHLORIDES

- Magnesium chloride
- Potassium chloride
- Calcium chloride

BLUEGENIX

ENRIX

ADVANCED EHP CONTROL & GUT HEALTH FORMULA

COMPOSITION

Herbal Extracts
Organic Acids
Bacillus spp.
MOS & Beta Glucan
Digestive Enzymes
Liver Support Nutrients
Vitamins & Feed Attractants

RECOMMENDED USAGE

- Preventive: 5 g/kg feed
- During EHP Challenge: 8–10 g/kg feed, daily, one meal

HEALTHY GUT
BETTER GROWTH
HIGHER HARVEST

EnriX is formulated to support shrimp gut health and performance during EHP-related and other challenging culture conditions. Its combination of herbal extracts, organic acids, beneficial bacteria, digestive enzymes, liver-support nutrients, vitamins and feed attractants is designed to support healthy digestion, feed utilization and shrimp resilience.

ENRIX

ADVANCED EHP CONTROL & GUT HEALTH FORMULA

SUPPORT SHRIMP IMMUNITY

SUPPORTS FEED UTILIZATION
Supports efficient digestion and better nutrient absorption.

ENHANCES DISEASE RESISTANCE
Helps support shrimp resilience during challenging culture conditions.

PROMOTES OPTIMUM GROWTH
Supports healthy growth and overall shrimp performance.

SUPPORTS HEPATOPANCREAS HEALTH
Helps support hepatopancreas health during EHP stress.

PRODUCT DETAILS
Product: EnriX™
Application: Shrimp Culture
Net Weight: 500 g

KEY BENEFITS

- Supports healthy gut function and hepatopancreas health during EHP stress
- Improves feed utilization and nutrient absorption
- Enhances disease resistance
- Supports immunity and stress resistance
- Helps maintain healthy gut microbial balance
- Supports shrimp performance during challenging culture conditions

BLUEGENIX

VIBBLOCX

UNIQUE SOLUTIONS FOR VIBRIO CONTROL

COMPOSITION

- Bacillus subtilis, Bacillus licheniformis, Bacillus velezensis, Lactobacillus plantarum and Organic Acids.
- Potency: 5×10^9 CFU/gram

RECOMMENDED USAGE

- Feed Application: 5–10 g/kg feed
- Water Application: 300–500 g/acre
- Mix with feed using binding gel/oil and shade dry before application.

MANAGE VIBRIO
SUPPORT GUT HEALTH
STRENGTHEN SHRIMP

VibBlocX is scientifically formulated to manage Vibrio, support gut health and strengthen shrimp resilience during challenging culture conditions.

VIBBLOCX

UNIQUE SOLUTIONS FOR VIBRIO CONTROL

ADVANCED FORMULA DUAL ACTION

SUPPORTS VIBRIO MANAGEMENT
Helps control and reduce harmful Vibrio bacteria in shrimp gut and pond.

SUPPORTS SHRIMP IMMUNITY
Helps improve shrimp immunity and disease resistance.

SUPPORTS GUT HEALTH
Helps maintain a healthy intestinal environment and microbial balance.

IMPROVES WATER QUALITY
Supports improved water quality and helps manage harmful bacterial conditions..

PRODUCT DETAILS
Product: VibBlocX™
Application: Shrimp Culture
Category: Vibrio Controller
Net Weight: 1 kg

KEY BENEFITS

- Controls and reduces Vibrio bacteria in shrimp gut and pond
- Improves shrimp immunity and disease resistance
- Better growth and survival rate
- Reduces harmful Vibrio, white gut and luminous bacteria
- Improves digestion and feed utilization
- Safer and natural alternative to antibiotics
- Supports better pond water quality
- Helps strengthen shrimp resilience

BLUEGENIX

PONDX PRO

ADVANCED POND & WATER QUALITY MANAGEMENT

COMPOSITION

Selected beneficial Bacillus strains
B. subtilis
B. licheniformis
B. amyloliquefaciens
B. velezensis
B. pumilus, Nitrosomonas, Rodococcus
Better microbial balance

RECOMMENDED USAGE

- Regular Application: 500 Grams /acre

BETTER WATER QUALITY
HEALTHIER POND
BETTER SHRIMP PERFORMANCE

PondX Pro is formulated to support water quality, pond-bottom health, beneficial microbial activity and overall shrimp growth and survival through effective biological and mineral management.

PONDX PRO

ADVANCED POND & WATER QUALITY MANAGEMENT

SUPPORT FOR POND WATER QUALITY IMPROVEMENT

IMPROVES WATER QUALITY
Helps maintain better water conditions and supports overall pond stability.

CONTROLS AMMONIA, NITRITE & HYDROGEN SULFIDE
Helps reduce ammonia, nitrite and hydrogen sulfide build-up in the pond.

SUPPORTS POND-BOTTOM HEALTH
Supports decomposition of sludge and organic waste while improving pond-bottom conditions.

SUPPORTS BENEFICIAL MICROBES
Helps suppress harmful Vibrio populations and supports beneficial microbial activity.

PRODUCT DETAILS
Product: PondX Pro™
Application: Shrimp Culture / Pond Management
Net Weight: 1 kg

KEY BENEFITS

- Accelerates sludge & waste decomposition
- Reduces ammonia, nitrite & H_2S
- Improves pond-bottom health
- Helps control harmful Vibrio
- Support for Pond water quality improvement
- Maintains pond stability
- Improves water clarity
- Supports better shrimp growth & survival

BLUEGENIX

AQUA MINEX

PREMIUM MINERAL FOR VANNAMEI SHRIMP CULTURE

COMPOSITION

- Calcium (Ca) -22.00%
- Phosphorus (P) -12.00%
- Magnesium (Mg) -4.00%
- Potassium (K) -2.50%
- Sodium (Na) -2.00%
- Sulphur (S) -1.00%
- Trace Minerals* -0.50%

Includes Zn, Mn, Fe, Cu, Co, I, Se etc.

RECOMMENDED USAGE

10 kg per acre
Or as directed by Aqua Consultant.

Aqua MineX is a scientifically formulated mineral blend designed to meet the essential mineral requirements of aquaculture. It supports healthy growth, improved feed utilization, stronger immunity and optimum water-quality conditions.

AQUA MINEX

STRONGER SHRIMP BETTER PERFORMANCE

PREMIUM MINERAL FOR VANNAMEI SHRIMP CULTURE

ESSENTIAL MINERALS
Provides essential macro and trace minerals required for shrimp culture.

SUPPORTS HEALTH & IMMUNITY
Helps support shrimp health and natural resilience.

ENHANCES GROWTH & PERFORMANCE
Supports healthy growth and overall culture performance.

IMPROVES WATER QUALITY & STABILITY
Helps maintain optimum water-quality parameters.

PRODUCT DETAILS
Product: Aqua MineX™
Application: Vannamei Shrimp Culture
Net Weight: 10 kg

KEY BENEFITS

- Supplies essential macro & trace minerals
- Promotes healthy growth and development
- Supports better feed utilization
- Supports immunity and stress tolerance
- Helps maintain mineral balance
- Supports optimum water-quality conditions

BLUEGENIX

SHELLCAP

PREMIUM MINERAL SUPPLEMENT

COMPOSITION

Monocalcium Phosphate (MCP): ≥ 98%
Phosphorus (P): ≥ 22%
Calcium (Ca): ≥ 14%
Expicients : Q.S.

RECOMMENDED USAGE

- Feed Application: 5–10 g/kg
- Water Application: 3 kg/acre
- Or as directed by your aquaculture expert.

Based on the ShellCap product label image you supplied.

SUPPORTS STRONG SHELL FORMATION FOR HEALTHY GROWTH

ShellCap is a premium mineral supplement designed to support shell hardness, healthy moulting, post-moult recovery and overall shrimp growth performance.

SHELLCAP

PREMIUM MINERAL SUPPLEMENT

SUPPORTS STRONG SHELL FORMATION

SUPPORTS SHELL HARDNESS
Helps support stronger shell formation and mineral availability.

SUPPORTS SHELL HARDNESS
Helps support stronger shell formation and mineral availability.

SUPPORTS MOULTING
Supports healthy moulting and proper shell development.

IMPROVES WATER QUALITY
Supports improved water quality and helps manage harmful bacterial conditions..

PRODUCT DETAILS
Product: Shell Cap
Application: strong shell formation
Category: Mineral supplement
Net Weight: 5 kg

KEY BENEFITS

- Supports shell hardness
- Supports healthy moulting
- Promotes post-moult recovery
- Supports growth performance
- Helps maintain mineral balance

BLUEGENIX

GUT X-TREME

ADVANCED DEFENSE AGAINST GUT CHALLENGES

COMPOSITION

Bacillus spp.
Organic Acids
Phytogenic Extracts
Digestive Enzymes
Vitamins & Antioxidants.

RECOMMENDED USAGE

- Preventive: 3–5 g/kg feed
- During Challenge: 10 g/kg feed, daily, twice
- Application: Mix with feed using binding gel/oil and shade dry before application.

HEALTHY GUT
BETTER DIGESTION
STRONGER SHRIMP

Gut X-treme is formulated to support gut health, intestinal microflora balance, digestion, nutrient absorption and overall shrimp performance during challenging culture conditions.

GUT X-TREME

ADVANCED DEFENSE AGAINST GUT CHALLENGES

SUPPORT GUT HEALTH

SUPPORTS HEALTHY GUT FUNCTION
Helps control gut health and supports healthy intestinal conditions.

SUPPORTS INTESTINAL MICROFLORA BALANCE
Helps maintain a balanced and healthy gut microbial environment.

IMPROVES NUTRIENT ABSORPTION
Supports efficient digestion and nutrient absorption.

SUPPORTS HEPATOPANCREAS HEALTH
Helps support hepatopancreas health and recovery.

PRODUCT DETAILS
Product: Gut X-treme™
Application: Shrimp Culture
Net Weight: 1 kg

KEY BENEFITS

- Helps control white gut and white feces condition
- Supports healthy intestinal microflora balance
- Reduces harmful Vibrio load in shrimp gut
- Improves feed digestion and nutrient absorption
- Enhances feed intake during stress conditions
- Supports hepatopancreas health and recovery
- Helps improve survival and pond performance
- Optimizes digestion and maintains digestive microbiome balance

BLUEGENIX

GROWX-BG

AQUACULTURE GROWTH ENHANCER For Shrimp Culture

COMPOSITION

Lactobacillus spp
Essential Amino Acids
Digestive Enzymes, Vitamins
Minerals & Organic Acids

RECOMMENDED USAGE

5–10 g/kg feed
Mix with feed using binding gel/oil and shade dry before application.

HEALTHY GROWTH
BETTER WEIGHT GAIN
STRONGER PERFORMANCE

GrowX-BG is an aquaculture growth enhancer formulated with Lactobacillus spp., essential amino acids, digestive enzymes, vitamins, minerals and organic acids to support healthy shrimp growth, feed utilization and overall culture performance.

GROWX-BG

AQUACULTURE GROWTH ENHANCER
For Shrimp Culture

SUPPORT SHRIMP IMMUNITY

FOR SHRIMP CULTURE
Promotes healthy growth, better weight gain and improved feed utilization for stronger shrimp performance.

PROMOTES HEALTHY GROWTH
Supports healthy growth and better weight gain.

IMPROVES FEED UTILIZATION
Supports better feed intake, digestion and nutrient utilization.

SUPPORTS IMMUNITY
Helps strengthen natural immunity and disease resistance.

PRODUCT DETAILS
Product: GrowX -BG
Application: Shrimp Growth Enhancer
Net Weight: 1KG

KEY BENEFITS

- Promotes healthy growth and better weight gain
- Improves feed intake and feed conversion ratio (FCR)
- Enhances nutrient digestion and absorption
- Strengthens immune response against stress and diseases
- Promotes uniform growth and better survival
- Supports moulting and shell development
- Improves pond productivity and harvest biomass

ASCOVEX-C

STABILIZED VITAMIN-C FOR AQUACULTURE

Product: Ascovex-C™
Application: Aquaculture / Shrimp Culture
Category: Stabilized Vitamin-C
Net Weight: 1 kg

Ascovex-C is a water-stable Vitamin-C formulation designed to support shrimp health, growth and resilience during aquaculture conditions.

STABLE VITAMIN-C. STRONGER RESILIENCE.

SUPPORTS COLLAGEN FORMATION
Essential for collagen formation and healthy growth.

SUPPORTS DETOXIFICATION
Helps in detoxification and supports the natural removal of harmful free radicals.

SUPPORTS STRESS MANAGEMENT
Enhances shrimp survival and resilience during stressful culture conditions.

SUPPORTS SHELL & TISSUE DEVELOPMENT
Supports healthy growth, shell formation and tissue development.

KEY BENEFITS

- Essential for collagen formation and wound healing
- Helps in detoxification and neutralizes harmful free radicals
- Enhances shrimp survival during stressful conditions
- Supports healthy growth and shell development
- Supports overall shrimp health and resilience

COMPOSITION

L-Ascorbic Acid (Vitamin C) -50% min.
Excipients -Q.S.

RECOMMENDED USAGE

Dosage :
5–10 g/kg feed Or as directed by your Aquaculture Expert.

FLOWING MINERALS | STRONGER SHRIMP | BRIGHTER YIELDS

FLOWMINEX

ADVANCED LIQUID MINERAL COMPLEX

Product: FLOWMINEX
Category: Liquid Mineral
Application: Shrimp
Net Weight: 5 Ltr, 15 Ltr

FlowMineX™ is an advanced liquid mineral complex designed to provide complete mineral support for healthy shrimp growth, shell strength, osmoregulation and water-quality stability.

LIQUID MINERAL COMPLEX

EIMPROVES SHELL STRENGTH
Supports stronger shell development and healthy moulting.

MAINTAINS OSMOREGULATION
Helps support mineral balance and osmoregulatory functions in shrimp.

STABILIZES WATER QUALITY
Supports stable and balanced pond-water conditions.

SUPPORTS GROWTH & SURVIVAL
Provides essential mineral support for healthy growth and better survival.

KEY BENEFITS

- Supports stronger shell formation
- Helps maintain osmoregulation
- Supports stable water quality
- Promotes healthy growth and survival
- Provides essential macro and trace minerals
- Supports better shrimp performance
- Helps maintain mineral balance in the pond

COMPOSITION

Essential Macro & Trace Minerals
Calcium (Ca) | Magnesium (Mg) | Potassium (K) | Trace Minerals

RECOMMENDED USAGE

Dosage :
Pond application - 3 Ltr /Acre
Feed Application - 10 ml per kg feed

FLOWING MINERALS | STRONGER SHRIMP | BRIGHTER YIELDS

BLUE OXY

Rapid Oxygen Support for Healthier Aquaculture

Blue Oxy is an oxygen tablet formulated to support dissolved oxygen levels, shrimp survival, pond-bottom conditions and overall water quality in aquaculture ponds.

PRODUCT DETAILS
Product: Blue Oxy™
Application: Aquaculture
Net Weight: 10 kg

RAPIDLY INCREASES DISSOLVED OXYGEN
Helps quickly increase dissolved oxygen (DO) levels in pond water.

SUPPORTS SHRIMP DURING LOW OXYGEN CONDITIONS
Helps support stronger shell formation and mineral availability.

SUPPORTS SURVIVAL DURING CLOUDY WEATHER
Helps shrimp cope with cloudy weather and improves pond conditions.

IMPROVES POND-BOTTOM CONDITIONS
Helps improve pond-bottom conditions by reducing anaerobic zones.

RAPID OXYGEN SUPPORT

KEY BENEFITS

- Rapidly increases dissolved oxygen (DO) levels in pond water
- Reduces stress during low-oxygen conditions
- Helps them survive during cloudy weather and improves pond conditions
- Improves pond-bottom conditions by reducing anaerobic zones
- Enhances beneficial microbial activity
- Helps maintain better water quality and pond stability

RECOMMENDED USAGE

Shrimp Culture
Normal Conditions: 1 kg/acre
Severe DO Problems: 2–3 kg/acre

Fish Culture
- Normal Conditions: 500 g/acre
- Severe DO Problems: 1–2 kg/acre

COMPOSITION

Sodium Percarbonate
Calcium Peroxide
Oxidizer Agents.

SANITRIX-A

ADVANCED AQUACULTURE WATER SANITIZER

Sanitrix-A™ is an advanced water sanitizer designed for aquaculture, supporting cleaner water, better pond conditions and improved disease-control management.

Product: Sanitrix-A™
Category: Advanced Aquaculture Water Sanitizer
Application: Aquaculture / Shrimp Culture
Net Content: 1 Ltr.

POWERFUL WATER SANITIZER
Reduces harmful bacteria, viruses & pathogens.

IMPROVES WATER QUALITY
Helps maintain a clean and healthy pond environment.

SAFE FOR AQUATIC LIFE
Non-toxic & eco-friendly when used as directed.

ENHANCES DISEASE CONTROL
Supports biosecurity and helps reduce stress in shrimp.

POWERFUL SAFE EFFECTIVE

KEY BENEFITS

- Reduces harmful bacteria, viruses & pathogens
- Helps maintain clean and healthy pond water
- Supports better water quality
- Supports aquatic life when used as directed
- Supports disease-control and biosecurity
- Helps reduce stress in shrimp
- Eco-friendly & biodegradable

RECOMMENDED USAGE
1 Ltr per acre

FHEALTHY GUT | BETTER ABSORPTION | STRONGER GROWTH

GUTFORT-X

ADVANCED GUT STABILIZING GEL

Gutfort-X™ is a specialized feed supplement gel for Vannamei shrimp culture, designed to support intestinal health, beneficial gut flora, feed utilization and overall shrimp performance.

Product: Gutfort-X
Category: Advanced Gut Stabilizing Gel
Application: Vannamei Shrimp Culture
Net Content: 5 Ltr.

ADVANCED GUT STABILIZING GEL

PROTECTS & STRENGTHENS INTESTINAL LINING
Helps repair and protect gut epithelial cells from damage.

PROMOTES BENEFICIAL GUT FLORA
Supports a balanced gut microbiome for better digestion.

IMPROVES FEED UTILIZATION & NUTRIENT ABSORPTION
Enhances digestion and maximizes nutrient uptake.

HELPS CONTROL WHITE GUT
Supports gut health and reduces the risk of white gut syndrome.

KEY BENEFITS

- Supports healthy gut flora
- Improves feed utilization
- Enhances digestion and nutrient absorption
- Helps control white gut
- Supports stronger shrimp
- Enhances growth and survival
- Supports better overall shrimp performance

RECOMMENDED USAGE
15 - 20 ml per kg of feed

FHEALTHY GUT | BETTER ABSORPTION | STRONGER GROWTH

NUTRIPEPT-X

PREMIUM BIO-ACTIVE GROWTH BOOSTER

NutriPept-X™ is a premium bio-active growth booster formulated to support shrimp immunity, growth, feed utilization, gut health, shell quality and overall farm performance.

Product: NutriPept-X™
Category: Premium Bio-Active Growth Booster Gel
Application: Shrimp
Net Weight: 5 Ltr, 20 Ltr

ACTIVE GROWTH BOOSTER

COMPOSITION

Each 100 g Contains:

- Protein Hydrolysate -40.00 g
- Essential Amino Acids -15.00 g
- Nucleotides -5.00 g
- Vitamins & Minerals -Q.S.
- Probiotics & Enzymes -Q.S.
- Excipients -Q.S.

Key Benefits

- Enhances immunity and disease resistance
- Promotes faster growth and higher yield
- Improves Feed Conversion Ratio (FCR)
- Strengthens gut health and digestion
- Improves shell quality and survival rate
- Reduces stress and supports overall shrimp health

RECOMMENDED USAGE
15-20 ml per kg of feed

BETTER NUTRITION | STRONGER SHRIMP | BETTER FARM PERFORMANCE.

LIVORISEX

ADVANCED HEPATOPANCREAS & METABOLIC SUPPORT FOR VANNAMEI SHRIMP

Advanced hepatopancreas & metabolic support for Vannamei shrimp, supporting digestion, nutrient utilization, appetite, antioxidant protection and healthy growth.

Product: LivoRiseX™
Category: Advanced Hepatopancreas & Metabolic Support
Application: Vannamei Shrimp
Net Content: 5 Ltr, 20 Ltr

ACTIVE GROWTH BOOSTER

COMPOSITION

- Silymarin
- Essential amino acid complex
- Phospholipids / Lecithin
- Choline
- Betaine
- Vitamin E
- Vitamin C
- B-Complex vitamins
- Herbal hepatoprotective extracts
- Digestive enzyme-supporting nutrients
- Suitable carrier base — q.s. to 1 L

KEY BENEFITS

- Supports healthy hepatopancreas function
- Supports normal digestion and nutrient utilization
- Helps maintain appetite and feed response
- Supports lipid and energy metabolism
- Provides antioxidant and metabolic support during culture stress
- Supports healthy shrimp growth and performance
- Helps maintain better feed utilization
- Supports recovery from nutritional and environmental

RECOMMENDED USAGE

Dosage: 15-20ml for 1kg feed

GEOMAX

ACTIVATED ZEOLITE ENRICHED WITH PROBIOTICS & YUCCA EXTRACTS

PRODUCT DETAILS
Product: GeomaX™
Application: Aquaculture Pond Management
Net Weight: 25 kg

GeomaX is an activated zeolite-based pond management solution enriched with probiotics and yucca extracts. It helps improve water quality, controls toxic gases, reduces organic load and promotes a healthier pond environment for better shrimp growth and survival.

100% NATURAL SOLUTION

IMPROVES WATER QUALITY
Helps reduce undesirable gases and supports better water conditions.

CONTROLS ORGANIC MATTER
Supports the decomposition of organic waste and improves pond cleanliness.

SUPPORTS BENEFICIAL MICROBES
Promotes a healthier microbial environment within the pond.

SUPPORTS POND-BOTTOM HEALTH
Helps maintain a cleaner pond bottom and supports better pond conditions.

KEY BENEFITS

- Controls toxic gases: NH_3, H_2S & organics
- Improves dissolved oxygen & water clarity
- Reduces bottom pollution & Supports beneficial microbes
- Helps control harmful organisms
- Reduces water turbidity & Supports cleaner pond bottoms
- Promotes healthier pond conditions

RECOMMENDED USAGE

- Pond Preparation: 50 kg or more per hectare
- During Culture: Minimum 15–20 kg or more per hectare, based on water depth
- Dosage and timing may be adjusted according to prevailing culture conditions or as advised by your aquaculture consultant.

COMPOSITION

SiO_2 -60–65%
Al_2O_3 -18–22%
Fe_2O_3 -2–3%
CaO -15–18%
MgO -2–5%
Na_2O -1–2% & Probiotics & Yucca -Q.S.

GEOMAX PRO GRANULES

PRODUCT DETAILS
Product: GeomaX PRO
Application: Aquaculture Pond Management
Net Weight: 25 kg

ACTIVATED ZEOLITE ENRICHED WITH PROBIOTICS & YUCCA EXTRACTS

GeomaX Pro is an activated zeolite-based pond management solution enriched with probiotics and yucca extracts.
It helps improve water quality, controls toxic gases, reduces organic load and promotes a healthier pond environment for better shrimp growth and survival.

100% NATURAL SOLUTION

IMPROVES WATER QUALITY

SUPPORTS BENEFICIAL MICROBES

CONTROLS ORGANIC MATTER

SUPPORTS POND-BOTTOM HEALTH

KEY BENEFITS

- Controls toxic gases like NH_3 & H_2S
- Improves oxygen & water clarity
- Reduces bottom pollution
- Supports beneficial microbes
- Helps control harmful organisms
- Reduces turbidity
- Promotes a cleaner pond bottom

COMPOSITION

- SiO_2 -60–65%
- Al_2O_3 -18–22%
- Fe_2O_3 -2–3%
- CaO -15–18%
- MgO -2–5%
- Na_2O -1–2%
- Probiotics & Yucca -Q.S.

BETTER WATER.
HEALTHIER POND.
STRONGER SHRIMP

RECOMMENDED USAGE

Pond Preparation: 30 kg/ha or more
During Culture: 15–20 kg/ha or more, based on water depth

HYDRO SOFTX

EDTA-BASED WATER CONDITIONER FOR AQUACULTURE

Hydro SoftX™ is an EDTA-based water conditioner designed to chelate harmful metal ions and improve water quality. It helps maintain stable water chemistry and creates a healthier environment for shrimp growth.

Product: Hydro SoftX™
Category: EDTA-Based Water Conditioner
Application: Aquaculture / Shrimp
Net Weight: 1 kg

POWERFUL SAFE EFFECTIVE

IMPROVES WATER QUALITY
Helps maintain cleaner and more stable pond water conditions.

SUPPORTS BENEFICIAL MICROBES
Promotes a healthier microbial environment in the pond.

CONTROLS ORGANIC MATTER
Supports the breakdown of organic waste and pond cleanliness.

SUPPORTS POND-BOTTOM HEALTH
Helps maintain a cleaner pond bottom and healthier conditions.

KEY BENEFITS

- Chelates harmful metal ions
- Helps control water hardness
- Improves water quality
- Supports mineral availability
- Supports healthier shrimp growth
- Promotes stable pond conditions

RECOMMENDED USAGE

As directed by the aquaculture expert

CLEAN WATER | BETTER GROWTH | HIGHER RETURNS

ODOMAX - BG

COMPLETE NITROGEN CONTROL SOLUTION

OdoMax™ is designed for comprehensive nitrogen management in aquaculture ponds, supporting the control of ammonia, nitrite, nitrate, sludge and organic waste.

Product: OdoMax™
Category: Complete Nitrogen Control Solution
Application: Shrimp & Fish Ponds
Net Weight: 1 kg

POWERFUL SAFE EFFECTIVE

AMMONIA CONTROL
Binds and reduces toxic ammonia.

NITRITE CONTROL
Promotes the conversion of nitrite to nitrate.

NITRATE MANAGEMENT
Supports natural denitrification.

SLUDGE & ORGANIC WASTE CONTROL
Breaks down organic waste and helps improve pond-bottom conditions.

KEY BENEFITS

- Reduces ammonia and nitrite rapidly
- Promotes nitrification and denitrification
- Helps control nitrate naturally
- Breaks down organic waste and sludge
- Improves water clarity and quality
- Supports healthy pond conditions
- Safe for shrimp and fish when used as directed
- Supports better survival and growth
- Helps improve FCR and farm profitability

RECOMMENDED USAGE

1 kg / acre
Water Depth: 5–6 feet
Application: Once every 7–10 days or as per requirement.
